

Human Support Group

*Providing the very best care
with the very best people.*

**At Human Support Group,
we provide home care that
promotes confidence, builds
independence and
changes lives.**

If your local authority is taking care of your basic care needs but you feel you could do with that extra helping hand, or you want to make your own decisions about your home care, where do you turn?

The good news is that there's help close to home. We at the Human Support Group (HSG) can provide home care services to you as a private customer. This means you can:

- receive support from people you can trust
- live your life as independently as possible
- relax, knowing you will be supported by our professional friendly care team.

As your needs change over time, you'll know there is always someone looking out for you and helping you stay safe and comfortable.

How we can help

You choose exactly what support you want, how often, and when. It might be help with washing and dressing, moving around, getting out and about, or taking medication. It might be shopping, housework or meal preparation. Or it might just be a reassuring weekly chat with a friendly face.

Whatever your needs, your care team will always include people with the relevant expertise - whether that be with personal care, helping to use mobility aids, or simply making a decent cup of tea!

Call us today to arrange a home appointment and find out more.

Please quote:

Private19 when making an enquiry.

“My fathers carers
are so dedicated,
they spend time
supporting him
and they brighten
up his day”.

“The office team
have been
extremely helpful
and understanding
so thank you
for your
support.”
